Bob,

I am busy 9:30 - 11 tomorrow, but the rest of the day is free.

Next steps on WOE Framework

Joe and Jenn: Eric and I talked today, and he has asked me to help organize/lead the next steps for development of the WOE framework following this past Tuesday's meeting. Sounds like by the end of the month, he would like us to at least have a refined WOE key and QA/fleshout the detailed LOEs on the individual receptor pages for the four examples we've done so far. Then, he was suggesting we bring in Chris and Lisa for revisions/discussion so we could potentially provide at least a brief update at the June 12 wrapup meeting. If all goes well, from there we would have to develop the full scheme and start the detailed work of assigning and calculating weights.

Do you both have some time to talk tomorrow (Friday) so we can get organized? Im clear all day until about 2pm. Thanks. -Bob
